

Diya Prajapati

Full Stack Developer | Software Engineer | Java, Spring Boot, React.js, Node.js & Microservices
Ahmedabad, Gujarat, India | +91 9725618684 | prajapatidiya3316@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer and aspiring Software Engineer with hands-on experience designing, building, and deploying scalable **full-stack web applications** using **Java, Spring Boot, React.js, Node.js, Express.js, and MongoDB/MySQL**. Skilled in **RESTful API design, microservices architecture, JWT/OAuth2 authentication, and responsive UI development**, with production deployments on **Vercel, Render, and Netlify** using **Docker and Git**. Strong foundation in **Data Structures & Algorithms, Object-Oriented Programming (OOP), SDLC, and Agile/Scrum**. Additional experience integrating **machine learning and LLM (Gemini API)** features into applications. Seeking a Full Stack Developer / Software Engineer role to build reliable, high-quality software.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, SQL, HTML, CSS

Backend Development: Spring Boot, Spring Security, Spring Data JPA, Hibernate, Node.js, Express.js, RESTful APIs, Microservices, API Gateway, Service Discovery, Multithreading, Exception Handling

Frontend Development: React.js, Redux, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility, Single Page Applications (SPA)

Security & Authentication: JWT, OAuth2, Keycloak, Authentication & Authorization, OTP Verification, CORS

Databases: MySQL, MongoDB, MongoDB Atlas, SQL, DBMS, Database Design, CRUD Operations

DevOps & Tools: Git, GitHub, Docker, Maven, Postman, VS Code, IntelliJ IDEA, Vercel, Render, Netlify, Streamlit Cloud

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Agile/Scrum, MVC Architecture, Debugging, Operating Systems, Collections Framework

AI/ML: scikit-learn, Pandas, NumPy, Flask, Google Gemini API, LLM Integration, Prompt Engineering

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Effective Communication

EXPERIENCE

ShadowFox – Web Development Intern

June 2026 – July 2026

- Developed responsive, cross-browser user interfaces using React.js and JavaScript with a mobile-first approach and pixel-accurate implementation of UI designs.
- Designed and integrated RESTful APIs to enable dynamic frontend-backend data communication in a full-stack dental clinic website.

CodeAlpha – Java Programming Intern

May 2026 – June 2026

- Implemented data structures using the Java Collections Framework, exception handling, and multithreading through hands-on coding assignments.
- Built console-based Java applications applying OOP principles (encapsulation, inheritance, polymorphism, abstraction), translating requirements into working, debugged code.

PROJECTS

FinCtrl – Expense Tracking System (Full-Stack, MERN)

[Live](#) | [GitHub](#)

Tech Stack: MongoDB Atlas, Express.js, React.js, Node.js, Tailwind CSS, JWT, REST API

- Engineered secure JWT authentication with OTP-based email verification and RESTful CRUD APIs for expense records, user profiles, and category filters.
- Deployed frontend and backend to production, resolving CORS and environment-variable configuration for stable cross-origin performance.

TaskFlow – Task Management Application (Full-Stack, MERN)

[Live](#) | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, REST API

- Built a full-stack task management platform with JWT-secured authentication, Kanban and calendar views, real-time status updates, and deadline tracking, deployed to production.

Salon Booking Platform (Java Microservices)

Tech Stack: Java, Spring Boot, Microservices, OAuth2, Keycloak, JWT, MySQL, React, Redux, Docker

- Building a microservices-based booking platform with an API Gateway, service discovery, OAuth2/Keycloak security and Docker containerization.

AI Income Predictor – Machine Learning Web Application

[Live](#) | [GitHub](#)

Tech Stack: Python, scikit-learn, Pandas, NumPy, Flask, REST API, HTML5, CSS3, JavaScript, Render

- Developed an end-to-end ML pipeline (preprocessing, training, evaluation) and served the model through a Flask REST API with a responsive frontend, deployed on Render with 99%+ uptime.

NeuroNova – AI Teaching Agent (LLM Application)

[Live](#) | [GitHub](#)

Tech Stack: Python, Streamlit, Google Gemini API, Prompt Engineering

- Built an LLM-powered teaching agent generating concept explanations, examples, and quizzes; deployed on Streamlit Cloud with graceful handling of API quota limits.

EDUCATION

KS School of Business Management & IT – Gujarat University

2026 – 2028

M.Sc. Information Technology (Pursuing)

Ahmedabad, India

KS School of Business Management & IT – Gujarat University

2023 – 2026

B.Sc. Information Technology

Ahmedabad, India

TRAINING & CERTIFICATIONS

- **Full Stack Web Development – C-DAC** (Apr – Sep 2025): Intensive hands-on program covering HTML, CSS, JavaScript, React, SQL, DBMS, OOPs and Java with lab exercises across the full development stack.
- **TCS iON Career Edge – Young Professional** (Oct 2025): Certification by Tata Consultancy Services in professional communication, workplace etiquette, and corporate interview readiness.
- **Infosys Springboard AI EMPOW(HER) – Skillsoft** (Jun 2026): Applied AI literacy and emerging technology modules delivered in collaboration with Infosys and Skillsoft.
