Ahmedabad, Gujarat, India | +91 9725618684 | prajapatidiya3316@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience across the full application lifecycle – from backend design in **Java, Spring Boot, and Hibernate/JPA** to responsive frontend development with **React.js** – and deploying applications to production. Skilled in **RESTful API, Microservices architecture, MySQL, JWT authentication, OOP, and DSA**, with practical experience debugging real-world backend and deployment issues under Agile/SDLC workflows. Looking to bring strong problem-solving and full-stack delivery skills to a Java Full Stack Developer role.

SKILLS

Programming Languages: Java, JavaScript, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS

Backend: RESTful API, MVC Architecture, Microservices, JDBC, Servlets, J2EE

Frameworks: Spring Boot, Spring MVC, Hibernate, JPA

Database: MySQL, DBMS

Tools & Technology: Git, GitHub, Docker, Postman

Core Concepts: OOP, DSA, SDLC, Agile/Scrum, Unit Testing, JUnit, Operating System

Soft Skills: Problem Solving, Team Collaboration, Analytical Thinking, Effective Communication

EXPERIENCE

ShadowFox – Web Development Intern

June 2026 – July 2026

- Developed responsive, cross-browser web interfaces using React.js and JavaScript, following mobile-first design principles and pixel-accurate UI implementation.
- Designed and integrated RESTful APIs to enable dynamic frontend-backend data communication, improving application interactivity.

CodeAlpha – Java Programming Intern

May 2026 – June 2026

- Built and debugged Java backend modules applying Object-Oriented Programming (OOP) principles and design patterns, integrating REST APIs for module communication.
- Identified and resolved 15+ bugs within a 4-week sprint cycle, improving code reliability and reducing defect rate.

PROJECTS

Salon Booking Platform

Tech Stack: Spring Boot, Spring Cloud, Microservices, Eureka, RabbitMQ, Keycloak, OAuth2, JWT, WebSockets, MySQL, React, Redux Toolkit, Tailwind CSS, Docker

- Building a production-grade, microservices-based salon booking platform with independent services for customer bookings, salon owner dashboards, and admin management, connected via an API Gateway and Eureka service discovery.
- Implementing secure authentication with OAuth2 and Keycloak, asynchronous inter-service communication using RabbitMQ, real-time notifications via WebSockets, and containerized deployment with Docker.

FinCtrl – Expense Tracking System

[Live](#) | [GitHub](#)

Tech Stack: MongoDB Atlas, Express.js, React.js, Node.js, Tailwind CSS, JWT, OTP Auth

- Engineered secure JWT authentication with OTP-based email verification, and built RESTful CRUD APIs for expense records, user profiles, and category filters using Node.js and MongoDB Atlas.
- Deployed frontend and backend to production, resolving CORS configuration and environment-variable setup to achieve stable cross-origin performance.

TaskFlow – Task Management Application

[Live](#) | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack task management platform with JWT-secured authentication, Kanban/calendar views, real-time status updates, and deadline tracking.
- Designed a responsive, state-driven React.js UI with interactive dashboards, deployed to production hosting.

AI Income Predictor

[Live](#) | [GitHub](#)

Tech Stack: Python, Flask, scikit-learn, HTML5, CSS3, JavaScript

- Developed a machine learning-powered income forecasting tool using scikit-learn, training and integrating the model into a Flask REST API backend.
- Built a responsive frontend for user input and prediction display, and deployed the application on Render with 99%+ uptime.

NeuroNova – AI Teaching Agent

[Live](#) | [GitHub](#)

Tech Stack: Python, Streamlit, Google Gemini API

- Built an AI-powered teaching agent using the Google Gemini API, enabling users to get concept explanations, real-life examples, and auto-generated quizzes on any topic.
- Deployed the application on Streamlit Cloud, handling API quota limits gracefully to ensure a smooth, uninterrupted user experience.

EDUCATION

KS School of Business Management & IT – Gujarat University

2023 – 2026

B.Sc. Information Technology

Ahmedabad, India

TRAINING & CERTIFICATIONS

- **Full Stack Web Development – C-DAC** (Apr – Sep 2025): 6-month intensive program covering the MERN stack, PHP, Java/J2EE, Spring Boot, Hibernate, MySQL, and MongoDB, with hands-on lab exercises across the full development stack.
- **TCS iON Career Edge – Young Professional** (Oct 2025): Certification by Tata Consultancy Services in professional communication, workplace etiquette, and corporate interview readiness.
- **Infosys Springboard AI EMPOW(H)ER – Skillsoft** (Jun 2026): Completed applied AI literacy and emerging technology modules delivered in collaboration with Infosys and Skillsoft.
